| **Balance**                   | **$10,105**   |
Staff Development

In the winter of 2012, 358 people registered for one of eleven different webinars on "Technology and Trends" topics. The webinar series was produced by SENYLRC staff and supported by Federal Library Services and Technology Act funds, awarded to the New York State Library by the Federal Institute of Museum and Library Services. The webinar presenters were experts in their fields and came to participants' computers from all over the country - and Australie! Attendees learned about emerging technology such as hyperlinked libraries, website design, scholarly communication, the new RDA cataloging standard, cloud computing, and several digital library initiatives including the HaitiTrust, the Digital Public Library of America and the Internet Archive.

From January to April 2013, SENYLRC and Teaching the Hudson Valley co-sponsored a workshop called Using Primary Sources to Teach the Hudson Valley. Seventeen people attended the series of five full-day workshops facilitated by Susan Stessin-Cohn, Historic Huguenot Street’s Education Director. The series emphasized items available online from the Library of Congress and Hudson River Valley Heritage while covering the Common Core, citation and copyright issues, tools, and strategies for using primary sources. The series was made possible by a grant from the Library of Congress Teaching with Primary Sources Program, Eastern Region, Waynesburg University.

Hospital Library Services Program & Medical Information Services Program

The changing healthcare landscape impacts hospital libraries and the delivery of medical information. SENYLRC provides members with partially subsidized electronic resource licensing and management, which means:
- Consortual discounted pricing for supplemental e-resources
- Collegial networking and support for one-person libraries
- Staff access to virtual medical information 24/7
- Shared access to core medical e-resources

In 2012-13, the HISP Committee worked to provide hospital members with the best available information resources that are electronically delivered to hospital staff in library, office, laboratory, ward, or clinic.

Medical Information Services Program (MISP)

MISP prioritizes support for access to medical information and subsidizes document delivery of medical information for all types of users in the region. During this year, medical interlibrary loan lender’s fees were paid on behalf of high school and public libraries as well as four-year academics, special libraries, and area hospitals. MISP also subsidizes some of the shared licensed medical information resources for hospitals in the region.

Resource Sharing

SENYLRC members have the opportunity to request information from the research library community in the region, state and beyond. These services include:
- SEAL: Southeastern Access to Libraries (Virtual Union Catalog and Interlibrary Loan System.)
  - The VUC includes 27 catalogs from the region.
  - In 2012, staff from more than 200 libraries in the region placed 6,716 requests. 4,395 were filled (65.4%).
  - 16 people attended 3 SEAL ILL System training workshops.
- Interlibrary Loan Committee Sponsored Programs in 2012:
  - Best Practices 2: an Interlibrary Loan Unconference.
  - 2nd ILLiad Users Working Group Meeting at Vassar College.
- ILL requests placed by SENYLRC staff via the OCLC, Docline and SEAL ILL Systems on behalf of regional libraries:
  - 504 requests were placed and 450 were filled.
  - The ILL costs of 380 requests were subsidized by MISP.

Special Library Catalog

The Special Library Catalog using Koha open-source software contains records from 19 libraries. The catalog contains:
- 65,037 records for books
- 2,518 records for print journals
- 3,109 records for e-books
- 1,783 records for e-journals

The catalog can be accessed at spec.senylrc.org
