Caring for Yourself While Caring for Others During the Pandemic: Self-Care and Stress Inoculation

Karla Vermeulen, Ph.D.
Deputy Director
Institute for Disaster Mental Health at SUNY New Paltz

HIERARCHY OF CONTROLS

Overview
Controlling exposures to occupational hazards is the fundamental method of protecting workers. Traditionally, a list of controls has been used as a means of determining how to implement feasible and effective control solutions. One representation of this hierarchy is as follows:

The idea behind this hierarchy is that the control methods at the top of the graph are potentially more effective and preferred than those at the bottom. Following this hierarchy normally leads to the implementation of inherently safer systems.
Fall into Books Conference
Kingston, NY – October 25, 2019
Digital Census Preparation Training: Hudson Valley
