We have always been at war with computers

A conversation about our values and technology

Thursday, August 21 @ 12:30 pm

Reference Group
Tuesday, August 5
11:00 am - 12:30 pm

This month's topic is: Promoting database selection and use in reference interactions
We will discuss how we talk about and encourage specific databases while working with patrons. To take advantage of the in-person format, we will do a group activity so that everyone can participate. The meeting is open to library workers from all types. We will discuss issues relevant to both academic and public librarians.

Webinar: We Have Always Been At War With Computers
Thursday, August 21
12:30 pm - 1:30 pm

Join **Jessamyn West** and **Ale Ruiz** for a conversation about computers: what they are, how we use them, and why we use them wrong. Also, why it's not our fault. The values supposedly imbued into technology are not the ones actually reflected back at technology users. We'll talk about how various dark patterns serve the goals of capitalism not community and what we can do about it.
